

Enhance your Virtualisation decision

VMWare approved capacity planning service

Prices starting from £999....

Consolidation of servers and storage is **THE** hot topic for everyone in IT and will remain so for many years! However, not everyone will get it right and as the saying goes, **if you do not plan, then you plan to fail!**

Whether the driver for your decision is Server Consolidation, SAN implementation or the introduction of a Virtual Desktop Environment, this service will add value to your plans.

We have listed below some of the key reasons organisations of all shapes and sizes are turning to **VMWare** to virtualise their server estate and to Brighter Connections when implementing storage area networks.

- 1 Reduce the total number of physical servers
- 2 Improve asset utilisation
- 3 Ease of creating high availability
- 4 Reducing electricity consumption due to rising energy costs
- 5 Simplify application availability
- 6 Simplify storage management
- 7 Ease of deployment for Virtual Desktops
- 8 Low cost of implementation
- 9 Simple ROI cost model
- 10 Security

Our simple pricing model is a great way to get your virtualisation plans underway. The output of our planning will give you possession of a very powerful report that can be used both internally and externally in your discussions and key decision making.

1-8 Servers	£999
9-18 Servers	£1599
19-25 Servers	£2000
26-35 Servers	£2400
36-45 Servers	£3200
46-55 Servers	£3700
55+	POA

All prices quoted are excluding VAT

Those who do not capacity plan will almost certainly waste:

- Time
- Money
- Space
- Capacity
- Air conditioning resources
- Electricity
- Effort

Those who do capacity plan will benefit from:

- A comprehensive report including qualified statistics
- A choice of qualified server configurations using leading brand technology from HP, Sun & IBM
- The most cost effective method of consolidating servers and storage
- Saving time
- Saving effort
- Saving money
- Providing an accurate and compelling business case
- Peace of mind
